

### The Spring Summit: A Time for Trying New Things

On May 21, 2010, AmeriCorps members from the Partnership to End Homelessness enjoyed gathering with their fellow members from across the state for the annual Spring Summit. Members attended educational classes, learning how to kick in self-defense, get the kinks out of a stressed body, and make food they didn't like the taste of. As member Arabella said, "It was *different!*" Members also listened to speaker Zimuzor "Zim" Ugochukwu talk about continuing to make a difference in the community. It was a fun time of trying new things and reconnecting with the new friends we made at last month's homeless camp cleanup.
